Our infernation is that the present wheat crop is more or less infected with smut. What causes smut? wiil be the question asked so often but no satisfactory answer. The important thing now, the best method of handling smutty wheat. First, harvest it when "dead ripe" and thresh from shock or stack it when perfectly dry. In stacking wheat contaminated

with smut, will suggest sprinkling of fine lime every two or three rounds, it will answer three purposes: 1st, will prevent weevil; 2ad, will destroy smut smell; 3rd, have a tendency to dry or harden the smut bill.

For convenience u c a burlap sack, put a pee'c or half bushel fine lime in it by striking it on the wheat, the lime will sift out in sufficient quantity. the enormous charges made. It has the banner one. A more lovely sum- This takes but little time but will save you mouey and probably make your wheat me chautable. In stacking wheat where there is no smut, sprinkle sait every two or three rounds in stacking, it is a sure preventive of wecvil and leaves the straw rick in fin een lition for cattle but, under no eireumstances use salt where there is smut, as the tendency of salt to moisture would be detrimental to smutty wheat.

THOMPSON-We anuonnee J. B. Thompson a caudidate for re-nomination by the Democratic party for Representative in Congress from this the 8th district.

Nothing of importance has transpired in the war situation since our last issue, save the arrival of the American soldiers off Santiago. It took the transports exactly six days to make the trip from Port Tampa to Santiago. They anchored twenty miles out at the suggestion of Admiral Sampson, who wanted, if possible, to keep their arrival unknown to the Spaniards until all arrangements for landing had been completed. Within fi teen minutes af- navy. ter Admiral Sampson and Major Gen. Shafter had met, they were on their way to Acerraderos, about twelve miles west of Santiago, where they landel and went a mile inland for conference with Gen. Garcia. Gen'i Saa'ter seems determined to lose no time. He vetoed the naval plan which called for further investigation of landing places lie opposed delay and guided by Gen. Garcia's knowleige of the country formed his plans mean to wage the war to the bitter

Tur old saying "Too many cooks spoil the broth" has been clearly borne out in this war. The trouble with getting our army in shape has all been caused by having too many bosses messing with aff irs. Gen. Miles and war, have been making faces at each Fork Sunday, one at 11 a. m., the othother for a week or so, and matters er at 4 p. m. have been delayed in order to give them a chance to spat at oneanother. The army would have been all right and had the war ended long ago had it not been for a gang of figure heads at Washington who wanted to 'rubber-neek" into every proposed move. It would be a great blessing if some fifty or a hundred "heads of departments" could be dumped into the sea.

Gov. BRADLEY Monday issued a proc-

"To the People of Kentucky-While brave sons are going and have to the front, at the risk of health gone to the front, at the risk of health and life, to defend the honor of the flag, avenge the murder of their brethren and assist the down-trodden and oppressed, it should not be forgotten that in many instances they have left families behind them who need and deserve your attention.

"It is suggested that organizations be formed in every county of the state for the purpose of looking after the loved ones of the absent soldiers and that immediate steps should be taken in this matter.

W. O. Bradley.

THE 'League of American Wheelnot stated in the lengthy reports published, but we presume its an organization without which the peonle of this country could not exist. The papers tell of how each rider "trained" for the races, the time he made, place if Uncle Sam was not sorely in fellows just at this time. Any man who can devote four to eight hours a day to "training" for a bicycle race ought to be made to shoulder a musket and go to the front.

WILLE the authorities are killing time trying to figure out plans whereby they will be personally benefitted politically, our brave boys have been almost roasting alive on the big battle ships in Cuban waters. The ships, stripped for action, are nothing but iron and steel. The baking sun, coming down as it does there, make them a veritable hell. If some of the powers that be could be placed in the position of our sailors for awhile it would bring about the jogging up which the Washington government so badly

Gallant Soldier and Beloved Gentleman Passes Peacefully Away.

Dr. M. D. Logan died at h's home near Danville, Saturday morning happiness. about five o'elock. Dr. Logan was blessed with remarkably good health through life, and it was not until within the last year or two that he began to fa!. Several times during the last three months his conditio was considered to be dangerous, but about two weeks ago he took a change for the better. This only lasted a short while and two days before the end eame, he began to sink rapidly. He was afflicted with a complication of diseases peculiar to men of his age.

Dr. Logan was perhaps the most widely-known man in Central Kentuety. He was born in Marion county, Ky., January 8, 1822. Ilis father, Beatty Logan, was of the pioneer famlies. When a young man, he enlisted in Col. McKee's regiment for the Mexiean war, and served with distinction. Later he read medicine under Dr. Hnff-

After he was exchanged he was assigned to Morgan's command, being the senior Captain in Gano's regiment. Dr. Logan was captured in the famous Ohio raid and remained a long time at Columbus, O., but was exchanged be-

fore the close of the war. It would be folly for this poor pen to attempt a eulogy upon the life of one so grand, so noble and so pure as was Dr. Logan. His praises are sung by the lips of every one, rich, poor, saint, and sinner, who had the pleasure of his acquaintance. Holy Writ tells us that none are without sin, but old figure-head Alger, secretary of livered two excellent sermons at the if Uncle Dave had any corruption in him, no one on this earth ever had cause to know it. isville and Nashville Rallroad Co. Will Restore One-llaif of the Cut Made In the Employes' Salaries.

Louisville, Ky., June 22.-The Comnercial Wednesday says: Beginning July 1 the Louisville & Nashville ra'lroad Co. will restore to its employes one-half of the cut made in their salaries on August 1, 1893, the panic year. This announcement will bring joy to the hearts of the many thousands of women and men who draw money for services from the L. & N. It has also been decided that no dividend on the company's stock will be declared, the management preferring to give its army of employes the benefit of increased earnings. With a continued improvement of business, however, the company will be in a position next year to declare dividends and also advance wages to the extent of the remalning portion of the cut. It is estimated that the restoration of one-half the cut made in salaries will cost the company fully \$500,000.
